As we move into 2022, students and parents should take note that more & more summer programs are now posting their applications online. Whatever one's area of interest or preferred type of activity, please start scanning the categories below and start applying!

And, in considering what to do, here is a helpful quote from a college admissions director:

“Students should spend their high school years participating in organizations and activities that bring them joy. It always saddens me when a student or parent asks which clubs or organizations they should join to increase their chances of admission to college. Living one's life simply to please others is never a good strategy for happiness and personal fulfillment. By exploring genuine, authentic interests as you move through high school, you'll learn a lot

about yourself and will be best able to showcase your talents to colleges when the time comes.”

—*Grant Gosselin, Director of Undergraduate Admission, Boston College*

As always, students and parents should feel free to contact Harvey Blumm for advice & assistance at: hblumm@stuy.edu

Here are some highlights for this week:

---In the ACADEMICS section, **Stanford University** offers a free innovative science research summer program for current juniors & seniors. **Carnegie Mellon University** has an array of summer pre-college classes (for current 10th & 11th graders); most charge tuition, but several options are free for low-income, under-represented, first generation-college, & certain other demographic student criteria.

---In the BUSINESS section, there are several upcoming **free virtual workshops** in resume writing, financial literacy, and internship prep. The first is scheduled for **January 11th** (4-5pm). The famed **Apollo Theater** in Manhattan offers current seniors a paid internship to learn about producing real entertainment shows in NYC – the application deadline is January 13th.

---In the COMMUNITY SERVICE section, there are interesting options offered by organizations such as CAAAV Organizing Asian Communities, the Museum of Mathematics, Flushing Town Hall, among others. And students may click on the link in the item for local tutoring opportunities to help younger New Yorkers in the new year!

For ease of use, these newsletters are organized by different categories, such as Academic Programs, Business & Jobs, Community Service, and so on.

New items always will be listed first in every category, followed by those with approaching deadlines (***Deadline Approaching***).

Questions, suggestions, and information about other opportunities are always welcome and appreciated, and may be sent to Internship Coordinator Harvey Blumm at: hblumm@stuy.edu - we will share your helpful information with the Stuy community!

If you are selected for or enroll in any of the above opportunities, please inform Mr. Blumm ASAP at: hblumm@stuy.edu

Whichever extra-curricular program, internship, or community service activity a student may participate in, they should be sure to ask their supervisor/coordinator to write a letter of appreciation before it concludes – it is sometimes very difficult to obtain this later on. And the more personal & detailed the letter, the better. A copy should then be submitted to your counselor.

Please feel free to contact Harvey Blumm at hblumm@stuy.edu with any questions or feedback on any items in this message, or with any suggestions or concerns you may have. **And always feel free to share any information about opportunities that may be of interest to our parents, teachers, or students**
